

1. COMPANY OVERVIEW

Niblack Industries is a mission-focused provider of products and services for military, federal, state, and local government agencies. Specializing in Science & Medicine, Petroleum & Chemical Support, and Construction & Infrastructure Services, we deliver reliable solutions that enhance operational readiness and support critical missions.

2. CORE COMPETENCIES

- a) **Science & Medicine:** Research, Scientific, Medical, and Laboratory Equipment & Services
- b) **Petroleum & Chemical Support:** Fuels, Chemical/Petroleum, and Alternative Energy Solutions.
- c) **Construction & Infrastructure Support:** Construction, Facilities Support, Environmental, and Land Improvement Services

3. PRODUCTS AND SERVICES EXAMPLES

The Company is authorized to provide

Medical, surgical, and dental supplies
Laboratory instruments, equipment, and consumables
Scientific devices, test systems, and diagnostics
Research support products and specialized scientific services
Pharmaceutical, Medical, & Diagnostic Supply Chains

NAICS Codes: 423450, 334516, 339112, 541715

Bulk fuels, diesel, gasoline, aviation fuels, and alternative fuels
Oils, lubricants, and petroleum additives
Industrial and hazardous chemicals
Energy logistics, delivery support, and emergency supply

NAICS Codes: 324110, 424720, 325199, 42469

Construction materials, equipment, and supplies
Site work, land clearing, grading, and environmental project support
Facilities operations, maintenance, and repair
Engineering and infrastructure support services

NAICS Codes: 238910, 332312, 541330, 561210, 562910

5. CERTIFICATIONS

- **WOSB** (SBA Certified Woman-Owned Small Business Set-Aside and Sole Source)
- **SBA** (Partial and Total Small Business Set-Aside)

SUPPORTING MISSIONS THROUGH INTEGRITY, PERFORMANCE AND RESULTS

4. PAST PERFORMANCES

Our expertise bridges public sector requirements with practical implementation, enabling missions to achieve greater productivity, reproducibility, and regulatory compliance.

INDUSTRIES SERVED

- Federal, State, and Local US Government Agencies
- Multinational Department of Defense Missions
- Global BioPharmaceutical Companies
- Top Academic Research Institutions
- Environmental and Public Health Sectors

PAST PERFORMANCE HIGHLIGHTS

- Supported implementation and adoption of solutions across research organizations and scientific institutions.
- Assisted in modernizing workflows and increasing operational efficiency technologies
- Provided advanced technical expertise, training, and consultative support deployments
- Engaged with federal, academic, and commercial stakeholders to identify and implement productivity solutions.

DIFFERENTIATORS

- Extensive experience supporting life science, pharmaceutical, biotechnology, and academic research laboratories
- Deep understanding of laboratory automation and analytical workflows
- Proven ability to bridge scientific requirements with operational execution
- Experience supporting highly regulated research environments
- Strong relationships across government, academic, and commercial scientific communities
- Expertise in integrating instrumentation, software, and automation platforms into cohesive laboratory ecosystems
- Customer-focused approach emphasizing productivity, precision, and scientific reproducibility

SUPPORTING MISSIONS THROUGH INTEGRITY, PERFORMANCE AND RESULTS
